Neelkamal Rana

Software Engineer | Full-Stack & Cloud Engineering

206-665-4686 | nkrneelkamalrana@gmail.com | linkedin.com/in/neelkamalrana | github.com/neelkamalrana

Summary

Software engineer building full-stack applications, cloud-native services, REST APIs, and microservices with React, TypeScript, Node.js, and Spring Boot. Experience improving API performance, optimizing SQL queries, and automating deployments and infrastructure with AWS, Docker, Jenkins, and Terraform. Delivered measurable improvements in processing throughput, deployment frequency, and enterprise application performance.

Technical Skills

Languages: Java, JavaScript, TypeScript, Python, SQL, Bash
Frontend & Backend: React, Redux, Next.js, Node.js, Express, Spring Boot, REST APIs, WebSockets
Data: PostgreSQL, MySQL, MongoDB, Redis, DynamoDB, Elasticsearch, Supabase; SQL optimization, caching
Cloud & DevOps: AWS (EC2, S3, Lambda, RDS, CloudFront, CloudWatch, X-Ray), Docker, Kubernetes, Terraform (infrastructure as code), Jenkins, GitHub Actions, CI/CD, Linux, Git, CloudFormation, VPC, autoscaling
Engineering: Microservices, Distributed Systems, Role-Based Access, Observability, Logging, Test Automation, Code Review, Kafka/SQS

Experience

New York Plates and Registration | Full Stack Engineer Jul 2026 – Present

- Developed a React, TypeScript, and Supabase portal for registration intake, document review, invoicing, and DMV tracking, increasing customer-handling capacity sixfold from 20 to 120 customers.
- Integrated AI document extraction and automated DMV PDF form filling with human review and PDF/HEIC support, increasing throughput from 15 to 50 files per hour (233%).
- Implement role-based workflows, PostgreSQL row-level security, task pipelines, and batch reporting.

Shoptaki | Software Engineer Intern Oct 2025 – Jul 2026

- Designed and implemented backend services and REST APIs for decentralized identity and know-your-customer (KYC) orchestration, with secure data handling and auditability.
- Supported Smartchain product development for financial institutions, including autonomous KYC, compliance workflows, and remittance modernization.
- Prototyped AI-assisted verification and automation flows for Smartchain, supporting financial-institution compliance workflows and consistent, explainable manual-review processes.

HCL Technologies
Full Stack Developer | Client: DHL Feb 2023 – Aug 2023

- Built and optimized Node.js/Express microservices integrated with React dashboards, reducing API response time by 40%.
- Automated CI/CD pipelines using Jenkins and Docker, enabling daily deployments with zero production downtime.
- Delivered a shipment and KPI analytics platform for 50+ enterprise clients, cutting issue-resolution time by 35%.
- Integrated AWS S3 and CloudFront for asset delivery, improving content load performance by 45% across global regions.

Frontend Developer | Client: DHL May 2022 – Jan 2023

- Developed responsive React and Redux shipment-tracking and reporting interfaces, improving load time by 55%; integrated REST APIs and WebSocket updates for 10K+ daily users.
- Enhanced customer portal UX, contributing to a 25% increase in daily active sessions and reduced churn.
- Implemented component-level caching and lazy loading, reducing frontend data-fetch latency by 35%.

System Engineer | Client: DHL BlueDart Nov 2021 – Apr 2022

- Developed and deployed Spring Boot microservices for an internal learning management system serving 20K+ users and 50K+ monthly assessments.
- Automated infrastructure with Terraform and Docker, cutting provisioning time by 70%; designed SQL indexes and optimized queries to reduce query execution time by 50%.
- Digitized training workflows, reducing manual reporting time by 60 hours per month and improving data accuracy.

Education

Pace University | New York, NY Aug 2023 – May 2025
Master of Science in Computer Science, Software Development concentration | GPA: 3.8/4.0
Relevant coursework: Data Structures and Algorithms, Parallel Computing, Artificial Intelligence, Full Stack Development

Certifications

AWS Certified Cloud Practitioner | Certified SAFe 6 Agilist | Certified Scrum Master (Scrum Alliance)
